WORK EXPERIENCE

Frontend Engineer / Homesilo.

APR 2021 - JUN 2023 / Full-time, remote

- Collaborated with, and managed a team of Backend engineers and Product designers to create a comprehensive web application with Admin and User dashboards, along with a native blogging system.
- Led successful on-site SEO efforts, enhancing web performance metrics including faster page loads and increased site traffic.
- Managed the marketing suite, integrating Google Analytics, Search Console, and Hubspot, resulting in substantial growth in website traffic and user engagement, while also optimizing the LinkedIn page to boost brand visibility and improve team communication.

Frontend Engineer / Openwaver.

APR 2023 - MAY 2023 / Freelance, Nigeria

- Contracted for frontend engineering, utilized React (Next.js), Tailwind CSS, and Material-UI to create a responsive website with a native blogging system powered by Sanity.io and GROQ API.
- Committed to excellence, accommodated multiple revisions to meet or exceed employer expectations for the high-quality website product.

Web Consultant / AG Consulting & Media.

SEPT 2021 - APR 2023 / Part-time, USA, remote.

- Redesigned website for enhanced user experience, leading to high user satisfaction and engagement.
- Proficiently set up marketing funnels, including social media ads, custom landing pages, and analytics tracking for successful marketing campaigns.
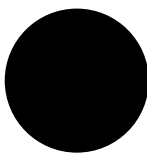

Web Consultant / Intodoors LLC.

NOV 2019 - AUG 2020 / Full-time, remote

- Worked at Intodoors, a South California real estate marketplace, designing the website with HTML, CSS and WordPress. Integrated MLS/IDX for listings, and serving as the SEO Manager and Digital Marketer.

Freelancer / Fiverr.

DEC 2016 - JAN 2021 / Full-time, remote

- Offering a wide range of services including website development, SEO management, web maintenance, digital marketing, and virtual assistant services, with a track record of completing over 70 projects and earning 68 5-star ratings.
